ISSUE No. 31

BRITAIN ENTERS THE ERA OF

THE GREAT TERROR!

ON MONDAY 2nd March London was subjected to a reign of terror by a mob of 10,000 West Indians.

What was supposed to have been a "demonstration march" degenerated into a pretext for gangs of "demonstrators" to engage in an orgy of rioting, looting, mugging and vandalism.

National Front News had observers positioned at all stages of the Black march from its start in Deptford, S.E. London to its conclusion in the West End. Two major facts emerge from their reports:

- *From the very outset numerous of the marchers clearly intended to engage in violence.*

Even as the column moved off, White pedestrians were attacked, including elderly women.

Buses, cars and Police vehicles were attacked. Numerous "marchers" were seen loading up rucksacks with half bricks and stones.

- *From the very outset it was clear that the Police were under orders to let the "marchers" do more or less as they pleased and to avoid making arrests.*

Numerous marchers carried heavy sticks, but their Police 'escort' ignored them. The Police turned a blind eye when "marchers" left the column to collect lethal missiles.

This 'low key' Police strategy did not mollify the Blacks. It emboldened them. By the time the "marchers" got to Blackfriars Bridge they were convinced that they could get away with anything.

The Police tried to check the onrush of the mob at Blackfriars Bridge, but the huge lorry at the head of the column contemptuously bulldozed its way through the Police line.

On the back of this lorry were a crowd of Rastafarians who maintained a throbbing cacophony on tom-toms and rattles while their leader maintained a chant of "Murder! . . . Murder! . . . Murder!"

This hysterical performance whipped the mob into a frenzy, and once the lorry had smashed through the Police line (no arrests) the mob stormed across the bridge and invaded central London.

Thereafter it was a question of mugging, assaults, attacks on innocent motorists and their vehicles, looting, and sporadic attacks on the Police.

Observers agreed that only a downpour of rain late in the afternoon and the fact that the rioters were tired after having marched 12 miles prevented the West End being sacked.

The majority of White people have been brought up to respect and admire the Police.

But after the events of "Black Monday" in London, and the performance of the Police at St: Paul's, Bristol, on 2nd April last year, and in Birmingham on 2nd January this year, it is clear that the Police are putting "Community Relations" before Law and Order.

At Bristol the Police abandoned the whole of the St. Paul's district **for seven hours** to a rioting, burning and looting Black mob.

At Birmingham the Police released without charge "dozens" of Black all-night party rioters after a degrading "pow-wow" with Rastafarian tribal chiefs.

These appalling Police tactics must change. But for a change to come about there must be a thorough-going **POLITICAL** change in our country – not only in Parliament, but also in town and borough Councils, in County Councils and all other levels of local government.

It is because the national and local government structures of our nation are dominated by Conservative, Labour and Liberal party politicians that the Police forces of Britain are obliged to adopt their "low profile-Community Relations" tactics.

It was these Old Gang party politicians and their Big Business patrons who encouraged millions of Afro-Asians to invade our country.

It was they who preached worship at the false god of Multi-Racialism.

It was they who set up the 'Race Relations Industry' to pamper the Immigrants and intimidate the White British patriots.

These corrupt politicians can now see that the multi-racial society that they foisted on the British people is falling apart and they fear (rightly) that the final collapse will lead not only to their removal from power but also, in many cases, the fate traditionally reserved for traitors.

Frantic with fear, the politicians are now deploying the supposedly "non-political" Police service to preserve their rotten multi-racial society, their careers and their necks.

On 7th May there will be polling in elections for the Greater London Council and the County Councils. Representatives of County Councils have a direct influence on the management of county constabularies.

Every vote cast for an NF candidate in these local elections will serve a warning on Police and Old Gang politicians alike that the British people reject the multi-racial society and all the misery that goes with it.

Some people think that local elections are all about 'local issues' such as cracked pavements. They should be – but in today's Britain what is the point of walking out on crack-free pavements if you are likely to have your head cracked in a race riot?

Don't be conned by trivia from the traitors. ***VOTE NATIONAL FRONT ON 7th MAY!***

ELECTIONS: A MEANS TO OUR END

NATIONAL FRONT candidates in the County Council and Greater London Council elections will be working flat out with their local campaign workers to attract as high a vote as possible but none of them delude themselves with the notion that they expect to be elected. Why, then, does the NF make an effort in elections? There are a number of reasons:

To begin with, elections are a vitally important means whereby the party can build up with the public a knowledge of and support for itself and its policies. In addition to building up general support, the mass distribution of campaign literature and the publicity which contesting in elections wins attracts new members. No matter what the results in terms of votes, elections help to build the party.

Participation in elections is also excellent training in the routine of serious political activity. Certain jobs have to be done correctly and within a specified time limit. Campaigners get to know their local areas, the local people and their particular problems. Personal contacts are made with the people we seek to serve. Elections help to make our members better disciplined and more political.

Finally, our continual involvement in electoral work helps to protect us from an increasingly oppressive Establishment. The public may well view us as the *enfants terribles* of political life – but they will not condone any attempt to ban us while we ask for their support in elections.

NF News seeks to persuade its readers to feel angry about the evils of multi-racialism and to direct their anger solely at the corrupt politicians who created a racial problem in Britain, and not to the Immigrant people in general. "Racialism" is NOT unlawful – only "racial hatred".

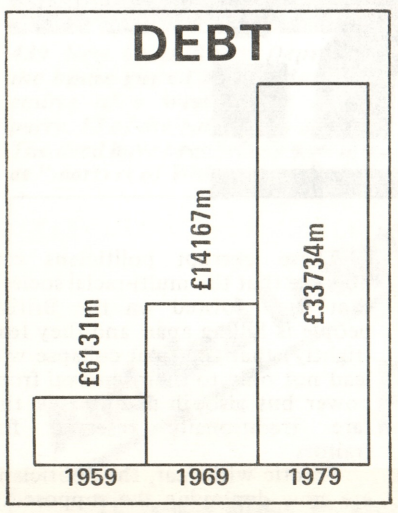
USURY AND LOCAL GOVERNMENT: WHY YOU ARE PAYING MORE FOR LESS



IN 1979 the total debt owed by local government bodies in Britain rose to a staggering £33.7 BILLION! Yet rather than attempting to reduce this debt Councils – whether Labour, Conservative or Liberal controlled – borrow yet more money thus adding still further to the burden of interest payments (currently £3.6 BILLION p.a.) which local ratepayers have to shoulder.

Much of the 'money' which Councils borrow from the banks does not in fact exist in terms of real wealth. It is simply credit created out of nothing by means of entries in the bankers' ledgers.

But the interest on such debts has to be paid back to the banks with real (earned) wealth. So Councils cut services and increase rates and rents.

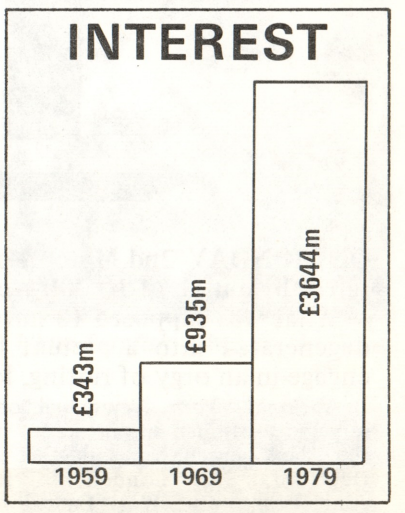
This usurious bankers' swindle is why Britain's local (and national) government system is falling apart.

The National Front will cut the 'Gordion Knot' of bankers' usury by:

1) *Repaying only that part of the municipal debt which the bankers can prove arose from loans of real wealth and cancelling debts which represent loans of 'money' created out of nothing by the bankers.*

2) *Establishing a national Municipal Bank to provide low interest loans to Councils for sensible projects.*

Councils will never be able to provide us with decent services at a reasonable cost until we get the bankers off their backs and out of our pockets!



HERE'S HOW THE USURERS ROB YOU...

HOUSING

THE BASIC cost of building a three bedroomed council house is now in the region of £15,000. However the cost to a Council when all the interest charges have been added is over £106,000!

The difference between these two figures is the amount paid to the usurers of the international banking system.

This enormous extra cost has to be paid either by the Council tenant in the form of high rents, or by taxpayers in general in the form of a housing subsidy.

For a typical council house, about 60% of the total revenue is spent on interest charges, while only 19% is spent on maintaining the property in good condition.

The provision of good quality council housing is a basic duty of local government. Yet the Conservatives are shirking their responsibility by selling off council houses and using the proceeds simply to pay the now crippling level of interest charges, rather than to build new council houses.

With this dwindling supply of council housing, waiting lists for accommodation are growing even longer. However there is one type of applicant who has no trouble in obtaining council housing – the newly arrived Immigrant.

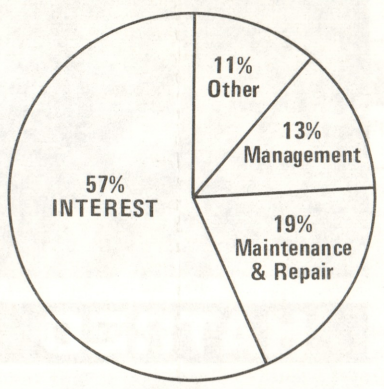
Last year Lord Chief Justice Widgery, in the High Court, ordered Hillingdon Council to immediately provide a house for an Ethiopian national even though she had only just arrived in this country and had absolutely no connection with this West London Borough.

She was able to leap straight to the head of the housing queue thus depriving our own White youngsters of a decent place to live.

The National Front will eliminate the massive debt burden, making council housing easily and cheaply available for our youngsters and will not house any Immigrant while there is a single White family waiting to be housed.

The British people have not worked all their lives to see their children homeless while Immigrants arriving at Heathrow Airport are given immediate housing with all their furniture provided free.

EXPENDITURE OF HOUSING REVENUE BY LOCAL AUTHORITIES



EDUCATION

BRITAIN'S schools and colleges have become a breeding ground for communism, where the "benefits" of multi-racialism are being forced onto our children, while traditional values such as pride in one's country are being scorned.

As we report on page 3 of this issue, local education authorities are now showing films in schools which encourage White girls to mate with Black boys and to regard the production of half-caste illegitimate babies as quite normal.

An increasing amount of time and money is now being spent not only on teaching English to Immigrant children, but on teaching Immigrants Urdu, Hindi, etc. All this effort and cash is showered on this type of work while our own youngsters often do not even have basic textbooks.

However modern "educationalists" are more concerned with courses in Sociology, Community Relations and Black Culture than in teaching our children those subjects which will fit them out for life.

It is nonsense to teach children about the life of Buddha when they cannot read enough English to fill in the forms which are an ever growing part of life in Britain.

There must also be a heavier emphasis on encouraging knowledge of the sciences, especially the new sciences such as electronics, as the future prosperity of our country will depend on the competence and inventiveness of the next generation of engineers and scientists. If necessary positive inducements must be offered to our youngsters to follow such courses.

We believe that the educational priorities should be those subjects which are essential if our youngsters are to find employment when they leave school and that a greater proportion of the resources available for education should be spent on nursery education which has been so badly neglected.

HEALTH

HEALTH services, the most vital services of all, have been as badly hit as any other local government department by the cuts which have been taking place over the last ten years. Since 1969 the total number of hospitals has been reduced by over 300.

Many of these were friendly local hospitals. They have been replaced with impersonal concrete monstrosities where the identity of the patient is reducedto a computerised number.

Despite the replacement of small hospitals with these giants the total number of beds has been reduced by over 70,000.

Some of these lost beds have been due to a deliberate policy of closing small hospitals before the replacement hospital is ready to open; then when due to a shortage of cash the large hospital is either delayed or, in some cases, totally cancelled. The area health authority then finds itself with a critical shortage of beds.

THESE British old folk have seen Britain safely through two World Wars and the Depression, but now they are denied adequate health treatment because usury payments to bankers is "a higher priority".

It is this type of horrendous mismanagement that has caused the waiting list for a hospital bed to soar to more than 750,000 patients.

This situation is made worse by the activities of 'Community Relations' minded social workers who insist that Immigrant mothers spend long periods of their pregnancy and post-natal period in hospital because they come from "socially deprived" conditions. White mothers are often obliged to have their babies at home, or are being hustled in and out of hospital as quickly as possible.

Even when a bed is available, it is now often in a hospital many miles away, which is difficult to get to, and to which the family may not be able to travel.

The National Front will put health services at the top of the list of priorities for council spending.

While we recognise that it is necessary to have modern facilities in some large hospitals, the role of the small local hospital is still a vital part of our National Health Service.

TRANSPORT

IF BRITAIN is to remain an industrialised nation it is essential that we have an efficient transport network. However such a network must take into account the environmental effects of these links.

Britain's roads have become a major scandal, they have been allowed to fall into a state of disrepair as a result of sustained neglect or because of continuing false economies in the materials being used. In some places, such as Manchester, great gaping holes have appeared in the middle of major roads where sewers have collapsed.

Much of this damage to our roads and to surrounding buildings is caused by overloaded European juggernauts using our roads. Yet now the Common Market is proposing to raise the weight limit on these vehicles!

This would not only cause yet more damage, it would also enable foreign haulage firms, already equipped with these giants, to compete unfairly with British firms which would be forced to buy new ones probably from a foreign manufacturer.

By-passes and major link roads which would provide fast through routes for traffic and which would take lorries away from housing areas have been continually delayed. If Britain's industrially depressed areas are to be given a new lease of life, these roads are absolutely essential.

At the same time local authorities must devote more money to investigating and encouraging alternative transport. Britain has an extensive system of railways which should be utilised to the full.

In Germany new branch links for industrial estates can be built in a matter of weeks, in Britain it takes years. We also have a system of canals which is being allowed to run down and is grossly under-used.

These and other alternative transport systems must be encouraged so that our roads are freer for those vehicles whose load cannot be moved in other ways.

IMMIGRATION IS A LOCAL GOVERNMENT ISSUE

DURING the course of the forthcoming County Council and Greater London Council elections you can bet that Tory, Labour and Liberal politicians and media commentators will "deplore the attempt by the National Front to introduce the Immigration controversy into local government politics."

They will say that local government is concerned with issues like housing, health and welfare services, education, local authority employment and the like, not Immigration.

The National Front's candidates say that Immigration and the consequent demands of the multi-racial society have a direct and baneful effect on council services.

Local government authorities of all types are being asked to make stringent cuts in the services that they were set up to provide the public, and are also being forced to hike both rates and rents . . . all in order to service the massive debts they have run up with the banks.

Yet despite all the cuts in essential services, expenditure on 'Community Relations' projects and services linked to providing assistance for the Immigrant community has generally been maintained.

This is done for two reasons:

Firstly, the authorities are fearful of major disorders from the Immigrant communities as Britain sinks deeper into economic crisis – so it is policy to throw public money at them in the hope of buying off trouble.

Secondly, in an increasing number of areas the Black vote is a decisive factor in elections. Thus Tory, Labour and Liberal politicians compete with one another in using ratepayers' money to buy favour with Immigrant voters.

TRAITORS

We exposed a particularly outrageous example of this misuse of public money in our last issue when we revealed how the Labour-Marxist controlled Lambeth Borough Council has set up a service to assist Black businesses in the borough which might be experiencing "racial discrimination".

This scheme to help Black businesses was announced just as the leader of Lambeth Borough Council, 'Red Ted' Knight, commenced his campaign as the Labour candidate for the Lambeth-Norwood division of the GLC!

In our September 1980 issue we exposed the decision of the Labour controlled Bolton Council to spend £71,000 on providing Asians and West Indians with their own 'Community Centres'.

At the same time that this was decided it was also revealed that the Regional Health Authority had decided to scrap essential building schemes at Bolton General Hospital . . . including a desperately-needed geriatric unit.

Labour controlled councils are not the only councils to get up to those kind of tricks.

Merton Council is Tory controlled and has pushed through many cuts on services. But Asians are now flooding into the South London borough, and Asian votes are important to Tories.

So a decision was taken by the Council in closed session to provide a 'Cultural Centre' for the Asians. Rates and tax payers will have to fork out £56,000 for this.

HOUSING

Housing, of course, is another local government responsibility directly affected by Immigration. Last year the High Court ruled that under the terms of the Housing (Homeless Persons) Act of 1977, Council housing authorities had a legal obligation to provide immediate accommodation for Immigrants who had just flown in to the country!

This test case enabled an Ethiopian woman and her illegitimate child to jump Hillingdon's council house waiting list.

In Slough, where Immigrants constitute 'only' 15 per cent of the population, four out of ten Council houses are allocated to Immigrants – yet despite this the Commission for Racial Equality alleged that the Council discriminated against Immigrants in its housing policies!

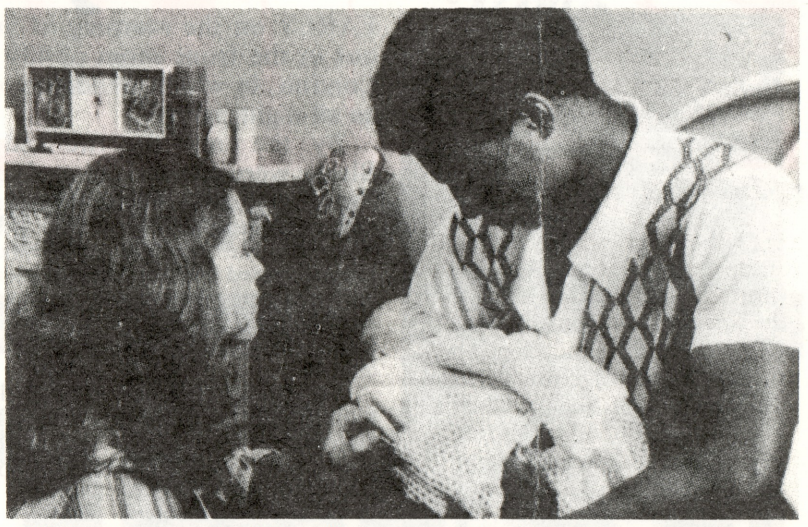
Community Relations Councils have achieved massive budget increases in recent years. In 1974/1975 the Manchester Community Relations Council received a Council grant of £2,000. By 1980 that grant had increased to £30,000 – a 15-fold increase.

In Leicester the Community Relations Council's budget increased by 31 per cent from 1978 to 1979. The grant to old folks' welfare services went up by only 13 per cent.

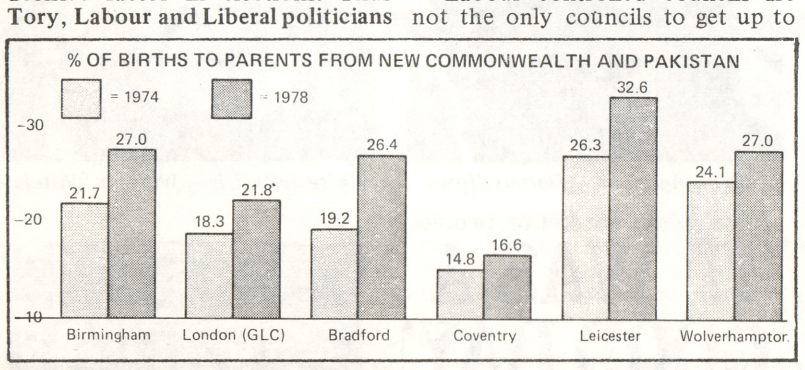
The demands which Immigrants make of Britain's health service are considerable. In maternity wards White women are whisked in and out as quickly as possible, while many Immigrant women are allowed to stay for longer periods – not for direct health reasons but "on account of their domestic or social circumstances."

All the ways in which Immigration and the multi-racial society affect local government services cannot be covered here.

What voters in the coming local elections must keep in mind is that NF candidates are committed to a rigorous policy of racial discrimination IN FAVOUR OF WHITE BRITISH PEOPLE.



*LOCAL education authoritities efforts to persuade schoolchildren to race-mix have reached the level of brainwashing. Here is a still from an ILEA film (*Personal Relationships*) which shows a Black youth with his White girlfriend and their illegitimate baby. NF councillors would ban this poison from our schools.*



THIS was the Immigrant birthrate position in six major British cities in 1978. Figures for 1979 were "delayed", and are only due to be published after we go to press (in late March 1981!). The general trend is that the Black birthrate increases by between 1 and 2 per cent per year. "Ethnic origin" questions have been deleted from the forthcoming Population Census.

CHRISTMAS DAY BIRTHS IN A NEWHAM HOSPITAL

THE Newham Recorder *went to the local hospital to photograph Christmas Day babies in 1978. These pictures were the result. Six births – one to an African, one to a West Indian, four to Asians. There were no White births. The last Population Census revealed that every 1,000 White women in Britain has 82 babies a year; every 1,000 West Indian women has 102 babies a year, and every 1,000 Asian women has 200 babies a year!*

CRIME AND DISORDER– POLICE LOSE THEIR GRIP

COUNTY Council and Greater London Council elections are a good time for voters to look at the performance of Britain's Police forces because the bill for the Police service is paid for by county councils and the GLC via 'precepts' levied on local rating authorities.

Local ratepayers are therefore entitled to ask themselves if they are getting good value for money, and if the decisions of Tory, Labour and Liberal politicians are placing an impossible burden on the Police.

Annual reports from Chief Constables with large urban areas to police are almost invariably gloomy reading, with figures for crime, especially crimes of violence, showing a continual upward trend.

The report issued by the Metropolitan Police is not untypical of these.

On 19th February 'The Met' reported:

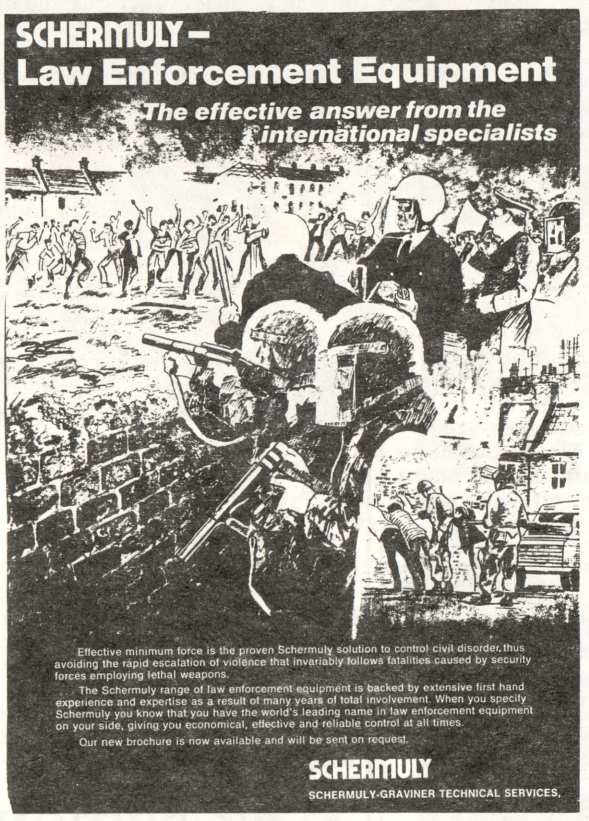
AGEISM–YES; RACISM–NO

"Serious crime in the Capital increased by 5 per cent last year (1980), with young people aged under 21 totalling half those arrested.

"584,137 crimes were recorded in 1980 compared with 557,378 in 1979. The clear-up rate remained the same at 20 per cent overall.

"The increase in serious crime is in part attributable to a 20 per cent increase in the offences of robbery and other violent theft – 13,984 against 11,636 in 1979.

"It is regrettable that a high percentage of the victims of these crimes are persons in the 60+ category."



SCHERMULY –
Law Enforcement Equipment
The effective answer from the international specialists
Effective minimum force is the proven Schermuly solution to control civil disorder, thus avoiding the rapid escalation of violence that invariably follows fatalities caused by security forces employing lethal weapons.
The Schermuly range of law enforcement equipment is backed by extensive first hand experience and expertise as a result of many years of total involvement. When you specify Schermuly you know that you have the world's leading name in law enforcement equipment on your side, giving you economical, effective and reliable control at all times.
Our new brochure is now available and will be sent on request.
SCHERMULY
SCHERMULY-GRAVINER TECHNICAL SERVICES,

THIS is an advertisement taken from the January 1981 issue of the International Defence Review *magazine. The illustrations could be based on current conditions in Londonderry, but this is not specified. The location could easily be Birmingham, Manchester, Bristol, London or any British city.*

Note that the main illustration depicts **Policemen,** *not soldiers–though soldiers are included in the minor drawing.*

The advertisement says: "A brochure will be sent on request." NF News *requested one of these, but the request was firmly denied. Why is this firm so shy about the equipment it is selling to 'our' Police?*

The report did not specify, except in terms of age group, what kind of people specialise in violent robbery attacks on old people – but perhaps we do not need to be told.

It will be remembered that *NF News* had a feature called **The Nightmare File** which specialised in throwing light on this aspect of life in Britain, but our Editor was sentenced to a six months' (suspended) jail sentence and fined, with costs, nearly £700 in a Race Relations Act prosecution in October 1979 for telling what both Judge and prosecutor admitted was the truth.

Because of the Tory, Labour and Liberal politicians' insistence on building a multi-racial society in Britain, the greatest single fear of Police forces everywhere in the country is race war.

The general public still associates the average British 'Bobby' just with a truncheon and a whistle. But in recent years constabularies everywhere have been secretly arming themselves with gladiator-like protective clothing, shields, CS gas, sub-machine guns, shot guns, sniper rifles and other hardware.

Joint exercises have also been held with the Army.

Proof of this ominous trend is illustrated in our reproduction of an advertisement aimed at Police forces in Britain.

Why should ratepayers pay through the nose to equip the Police for race war when repatriation of aliens would be so much cheaper?

TORIES OUT-GROVEL LABOUR FOR BLACK VOTE

MICHAEL FOOT, leader of the Labour Party, gave his personal endorsement to a resolution before a conference of the London Labour Party on Sunday 8th March which declared that the Deptford fire in which 13 West Indians were killed was "mass murder".

This resolution was an echo of the false propaganda put out by Communist and Black Powergroups.

The reason why Foot uttered such a mischievous comment lies in the fact that the Labour Party is desperate to bump up its share of the Immigrant vote.

The Labour Party was prompted to engage in this bit of irresponsible Black vote-catching by an article which appeared in *The Observer* a week prior to its conference which reported that Labour was being outgrovelled by the Tories in the battle for the Black vote.

The article revealed:

"The Labour Party is worried about its failure to attract coloured supporters – and about the drive and energy which the Tories are devoting to the problem.

"Labour's alarm . . . is revealed in a confidential memo . . . which speaks of the 'dismal' and 'disappointing' record of constituency parties in furthering contacts with the immigrant community."

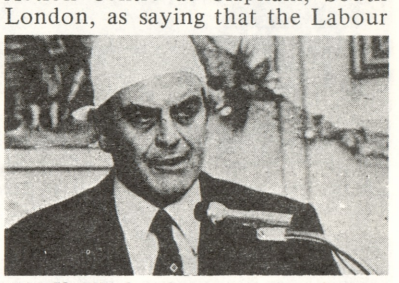
Only 132 constituency parties out of 365 bothered to return a questionnaire on the subject. The memo contrasted this with the pro-Immigrant activities of the Tory Party:

"The Conservative Party has been hard at work at this since 1976!" the memo declared. "Tory Central Office employs an officer as Assistant Director (Community) to liaise with ethnic organisations.

"The officer, Mr. Mervyn Kohler (Ho ho! – Ed.) *has set up the Anglo-Asian Conservative Association and the Anglo-West Indian Conservative Association. The Asian group is more successful with about 1,000 members in 14 branches . . .*

"Mr. Kohler has a budget of between £2,000 and £3,000 . . . he travels to conferences, seminars and social functions offering help to new ethnic community groups. Junior Ministers and Secretaries of State are despatched to address such groups."

The memo quoted Mr. Jay Thakkar, of the Asian Community Action Centre at Clapham, South London, as saying that the Labour Party should emulate Mr. Kohler's work on behalf of the Tories.



TORY MP for Gravesend Tim Brinton wore Sikh ceremonial headgear as he canvassed Asian voters in a Sikh temple during the last General Election.

"The Tories have sussed out that there are now Asians in this country who want to be something," he declared.

It was this information which inspired Foot to champion the despicable propaganda lie about the Deptford fire which only five days before had incited 10,000 West Indians to riot on London's streets!

What the memo indicated was something that *NF News* has exposed continually for years:

The Labour Party is ideologically more committed to multi-racialism than the Tory Party, but that the opportunistic and wealthy Tory Party is able to mount a cynical campaign to win over the Immigrant vote while simultaneously conning the White electorate that it is "anti-Immigration"!

If you're anti-Immigration, your only hope is to vote for a National Front candidate!

NATIONALISM TODAY

Independent 20 page magazine produced by YNF members. Send 40p for sample copy to NATIONALISM TODAY, Hill House, Huntingfield, near Halesworth, Suffolk.

WHITELAW: 'YES' TO BLACK RAMPAGE, 'NO' TO N.F. MARCH

439 New Cross Road, Deptford – the house gutted by fire during the course of a West Indian all-night party. 13 of the partygoers perished. The dead have been falsely sanctified as "martyrs of White racism".

EARLY on the morning of Sunday 18th January a fire broke out in the front room of 439 New Cross Road, Deptford, S.E. London, in which hundreds of West Indians had been holding an all-night party.

By the time the fire had gutted the building 13 young Blacks were either dead or dying.

Before Police forensic experts had even begun to determine the cause of the fire the Anti Nazi League seized on the incident as a publicity winning gimmick, and quickly began issuing poisonous leaflets designed to incite the Black community to violence.

This stoking of the fires of Black hatred led to the explosion of violence which attended the Black march on London held on Monday 2nd March.

NO EVIDENCE

There was never any evidence that the fire had been started as a result of an attack by "White racists".

The Police have firmly asserted that all the evidence points to the fact that the fire was started by one of the Black partygoers themselves.

So far as the White population of Deptford is concerned, the vicious propaganda issued to the Black community has resulted in them experiencing sustained intimidation and violence from revenge crazy gangs of Black youths.

Houses in streets where White people predominate have had all their windows smashed. White pedestrians of all ages are regularly barged off the pavements by Black louts. An atmosphere of anti-White hatred and intimidation hangs in the air.

In view of the refusal of the Police to defend the White community from this intimidation, and in view of the refusal of the press to report what was going on, the South London Regional Council of the National Front decided to hold a local members' march through Deptford and by the gutted building on the theme:

"Don't Blame the Whites for the Deptford Fire!"

The march was set to take place on the morning of Saturday 7th March, five days after the Black protest march on London.

RIOT SPARK

The Police and the Home Office knew that the Blacks' march on 2nd March would be a seriously violent affair and that it could spark off major rioting.

The authorities had the power to ban the Blacks' march under the Public Order Act, but they declined to do so because they were not prepared to set themselves up in what they knew would be a very bloody confrontation.

The result of this decision was to subject the White population to even more terrorisation. This caused the local NF members to be even more determined to march and so draw attention to the plight of local White people.

But the authorities were not prepared to cater for the feelings and needs of the White population. On the contrary, they decided that they would use the proposed local NF march as a means of trying to persuade the Blacks that the Police and the Government were not such bad chaps by banning it under the Public Order Act.

"PROVOCATIVE"

Whitelaw tried to justify the ban by saying that the march was "provocative" in that part of its proposed route went by the gutted house. But how can a march which **disclaims** White responsibility for the fire be "provocative"?

At all events the Public Order Act grants the Police powers to **re-route** marches, thus the reason given for banning the entire march was completely bogus.

BENEFITS

But despite the ban on its local march, the NF won considerable benefits from this whole affair. It showed – yet again – that it is the **only** party prepared to stand up for White people in the multi-racial madhouse that is Britain today.

It also forced the authorities to advertise the fact that they are prepared to crush the rights of White people and engage in any act of cowardice and corruption in order to appease a Black mob.

Black Agitator – Darcus Howe

White Jellyfish – William Whitelaw

Anti Nazi League

STOP THE RACIST MURDERS

It is now clear to everyone but the police and the media that the deaths of 13 young blacks in a fire at Deptford were racist murders.

Neo nazi organisations in Europe are known to have been pressurising Britain's fascists to engage in more violent attacks.

The grief and hysteria of the West Indian community after the fire was quickly and ruthlessly exploited by evil propaganda such as this from the Anti Nazi League. This kind of incitement contributed to the violence of the Black mob that invaded central London on 2nd March.

Race chief's verdict on protest

YARD BANS RACE HATE MARCH

Wobbling from a Jellyfish

HARASSMENT SPECIALIST HAIN COMPLAINS OF HARASSMENT

PETER HAIN, who achieved notoriety for organising the mass harassment and intimidation of South African sportsmen, has complained that he and other Anti Nazi League leaders living in South London are being harassed.

He claims that the alleged harassment comes about as a result of his and his associates' home addresses and phone numbers being published in the independent newsletter *South London News* published by Young National Front members attached to Wandsworth and Lambeth branches.

He claims the harassment includes late night abusive phone calls, window smashing and excrement filled letters. Hain's complaints have been given big publicity by the press.

But the press have ignored the fact that NF members and candidates in all parts of the country have been subjected to a continual campaign of terrorism at their homes and workplaces ever since the Anti Nazi League was formed.

The widespread harassment of NF members began after a magazine associated with ANAL called *Forewarned* began publishing the addresses and phone numbers of **hundreds** of NF activists.

The man responsible for publishing this ANAL 'Hit List' is one Dave Roberts, an ANAL platform speaker and sometime employee of *Searchlight* Editor Maurice Ludmer who sits with Hain on the ANAL Steering Committee.

Roberts, a hardline Stalinist Red, has convictions for violence.

From early 1978 until the present time NF members have not only had to put up with broken windows, wall daubings, threatening phone calls and the like, but also attempts to burn down their homes. We reported another arson attack (on the home of the NF Bolton organiser) in our last issue.

The NF does not encourage or condone reprisal attacks, but points out that it was the Left who opened the Pandora's Box of harassment.

Peter Hain peering through a broken glass darkly

SPECIAL NOTICE TO READERS

DUE to the need for *NF News* to devote much of its space this issue to topics connected with the imminent County Council and GLC elections (in which numerous NF candidates are standing), and the obvious need to give special coverage to events connected with the Deptford fire, numerous reports about local and regional NF activities in all parts of the country have had to be held over until the next issue.

CHELSEA POLICE RIOT AGAINST *NF NEWS*

***NF NEWS* sellers have been peacefully selling their papers outside Chelsea football ground for two seasons. Hundreds of copies are sold at each match.**

But as a result of lobbying from the Commission for Racial Equality, Establishment figures in the Football Association, the Jewish Board of Deputies, Zionist directors on the board of CFC and the mass media, the Police engaged in unprovoked attacks on *NF News* sellers on 21st February and 7th March.

On 21st February the bully-boys were SPG officers who arrested any salesman they saw not moving for "obstruction".

On 7th March squads of obscenity shouting local Police assaulted and arrested salesmen without warning – whether they were moving or not – for "obstruction".

Later the Duty Inspector at Fulham Police Station said his officers were acting on "Home Office orders".

A protest delegation to Scotland Yard is being arranged.

WHAT WE STAND FOR

- The return of leadership and statesmanship to British Affairs.
- A government that will put British interests first.
- An end to Immigration and a start to repatriation.
- British withdrawal from the European Common Market.
- The exclusion of all foreign manufactured goods that can be made in Britain.
- Closer links with the White Commonwealth.
- A sane financial system which will give to the people the purchasing power to buy the goods they produce.
- The revival of British farming.
- British ownership and control of British industry and resources.
- A clamp down on both corporate tax avoiding and social security parasites.
- Encouragement for all those who work hard.
- An end to aid to Black dictatorships.
- Strengthening Britain's defences.
- Tougher treatment of criminals, including the restoration of the death penalty for certain categories of murder.
- Support for the Loyalist majority in Northern Ireland and the eradication of the IRA.
- The rooting out of communist subversion in Britain, especially in the mass media, the factory, the public services and the schoolroom.
- Support for White Civilisation in southern Africa.
